EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. Applicant's amendment, filed on March 29, 2006, has been fully considered and entered.

Reasons for Allowance

2. Claims 2, 4 and 8-17 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest all the limitations recited in independent claims 2 and 8. Specifically, the prior art of record fails to disclose or suggest an optical interconnection device comprising an optical waveguide layer, wherein the waveguide layer is equipped with a plurality of electrodes which are independently drive-controllable such that a refractive index distribution is generated in the waveguide layer by drive control of the electrodes to control a propagation state of light in the waveguide layer, and wherein the optical interconnection port is comprised of an optical element for receiving or emitting a light in a direction approximately perpendicular to a light-waveguiding surface and an optical path conversion means provided corresponding to the optical element at a given position in the waveguide layer, further wherein the optical path conversion means is a light reflector with a convex shape and the optical element is a plurality of surface elements arranged

around a top of the convex of the light reflector with their centers deviated from the top of the convex such that each optical element effects emission or reception only to and from a limited region within the waveguide layer in combination with the other limitations of claims 2 and 8.

Claim 4 depends from claim 2.

Claims 9-17 depend from claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
